## Air and Water Infiltration Maxima

On August 11, 1997, McElroy Metal, Inc. tested its Maxima Roof Panel for air leakage and water penetration.
TEST METHODS:

Air Leakage:
Water Penetration: ASTM E1646-95, "Water Penetration of Exterior Metal Roof Panel Systems by Uniform Static Air Pressure Difference"

## TEST SPECIMEN:

McElroy Metal, Inc. 24 Ga . Maxima 216 Roof Panel with factory applied sealant at sidelaps. Panels were attached to purlins using clips at $3^{\prime}-4$ " on center. The panels were mechanically seamed to 90 degrees.

TEST RESULTS:
*Results are extrapolated to different panel widths.

|  | Air Infiltration |  |  | Water Penetration |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Specimen | Static <br> Pressure <br> Differential <br> $(\mathrm{psf})$ |  | Air Infiltration rate (cfm/sf) | Static Pressure Differential (psf) | Rate (gal./hr/sf) | Test Duration (min) | Water Infiltration |
